INTERNATIONAL SEARCH REPORT

PCT/GB2005/000583

a. classi IPC 7	FICATION OF SUBJECT MATTER G01N33/50 A01K67/027			
According to International Patent Classification (IPC) or to both national classification and IPC				
B. FIELDS SEARCHED				
Minimum do IPC 7	cumentation searched (classification system followed by classification GO1N AO1K	on symbols)		
Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched				
Electronic data base consulted during the international search (name of data base and, where practical, search terms used)				
EPO-In	ternal, BIOSIS, WPI Data, PAJ, EMBAS	SE `		
C. DOCUMENTS CONSIDERED TO BE RELEVANT				
Category *	Citation of document, with indication, where appropriate, of the rela	evant passages	Relevant to claim No.	
А	KHAN NAIM A ET AL: "Role of sero fish immunomodulation" JOURNAL OF EXPERIMENTAL BIOLOGY, vol. 200, no. 13, 1997, pages 183 XP002327894 ISSN: 0022-0949			
A	PARDRIDGE WILLIAM M: "Drug and gene delivery to the brain: The vascular route." NEURON, vol. 36, no. 4, 14 November 2002 (2002-11-14), pages 555-558, XP002327895 ISSN: 0896-6273			
Further documents are listed in the continuation of box C. Patent family members are listed in annex.				
Special categories of cited documents: 'A document defining the general state of the art which is not considered to be of particular relevance 'E* earlier document but published on or after the international filing date 'L* document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified) 'O* document referring to an oral disclosure, use, exhibition or other means 'P* document published prior to the international filing date but later than the priority date claimed Date of the actual completion of the international search 'T* later document published after the international filing date or priority date and not in conflict with the application but clted to understand the principle or theory underlying the invention cannot be considered novel or cannot be considered to invention cannot be considered novel or cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art. '&* document published after the international filing date or priority date and not in conflict with the application but clted to understand the principle or theory underlying the invention cannot be considered novel or cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone which is combined with one or more other such documents, such combination being obvious to a person skilled in the art. '&* document member of the same patent family Date of the actual completion of the international search report				
	Date of the actual completion of the international search Date of mailing of the international search report 25/05/2005			
Name and mailing address of the ISA European Patent Office, P.B. 5818 Patentlaan 2 NL - 2280 HV Rijswijk Tel. (+31-70) 340-2040, Tx. 31 651 epo nl, Fax. (+31-70) 340-3016		Authorized officer Döpfer, K-P
